

The Isleworth & Syon Way Enrichment Programme

This document is designed to support student learning opportunities outside our curriculum.

It aims to signpost tasks and challenges available to develop some of the skills and qualities that help to make up an Isleworth & Syon student.

The opportunities highlighted are stepping stones to aid progress and to build character as each student develops themselves in the Isleworth & Syon way.

Each icon is hyperlinked to guide students to appropriate activities or opportunities. These activities are designed to take place from home and could be achieved throughout the school holidays.
