Dear Parent/Carer,

Coronavirus (COVID-19) Update – Key Worker Survey

I am grateful to all our families for the support with the return of students to full-time schooling. Attendance has, so far, been very good and the vast majority of our students have adapted really well to the procedural changes that have been implemented on site. I know that the staff are all enjoying the chance to be teaching and engaging with our students back in the classroom.

The government requires us to plan for further lockdowns, whether this is for small groups, year groups or indeed the whole school. A partial closure could result from a positive case of COVID-19 in school, or from a local or national lockdown.

If there is another partial closure, we will be providing the opportunity for on-site support for the children of key or critical workers. A list of such workers can be accessed [here](#).

If you are a key worker, **please complete the form [here](#)** so that we can ensure that our records are up-to-date. Should we need to partially close, we will only be able to accommodate students for whom we have completed information.

Thank you again for your cooperation and understanding.

Yours sincerely,

Euan Ferguson
Headteacher
