

10 June 2022

Dear Parent/Carer,

Year 10 GCSE Statistics Examination – Final Information

Your son/ward is taking their first GCSE statistics paper on the afternoon of next Tuesday, 14 June. It is imperative that they are in school on that day.

Over the weekend, they can revise by looking at the [advanced information](#) supplied by Edexcel - which gives us the topics that will come up on the paper - and revise using their revision books (available from the school shop) or an online resource. I recommend [statsacademy.co.uk](https://www.statsacademy.co.uk), which has some excellent revision notes along with past paper questions by topic and the mark schemes.

It is also important that they bring a calculator to school with them next Tuesday, as they should do every day. Please check that they have their calculator and that it is working over the weekend. The second paper is on the morning of Friday 24 June. Punctuality will be very important on this day.

We appreciate your continued support at this final stage of the build up to this GCSE.

Yours faithfully,

Mr J Barry
Curriculum Leader - Mathematics
